

FORESEEN

WE MATCH THE RIGHT RED DOT TO THE RIGHT PISTOL

We are not just selling red dots. We help handgun brands build the right optics-ready package.

Foreseen Optics works as an optics-support partner for handgun manufacturers and brands.

We match the right red dot to each pistol based on its price level, use scenario, recoil demand, target user, and market position.

A budget pistol should not be forced to carry an overbuilt optic.

A premium or duty-ready pistol should not be paired with an under-qualified one.

**PISTOL POSITION FIRST.
OPTIC MATCHING SECOND.**

WHY FORESEEN

BRAND-FIRST

We support your pistol brand, not ours.

RIGHT-LEVEL

We match optics to each pistol's market position.

STYLE-MATCHING DESIGN

Optics can follow the slide, polymer grip, and brand style.

LOW MOQ & GLOBAL DELIVERY

Start with one pistol line and ship directly to overseas dealer warehouses.

4 PRODUCT LEVELS

A	BUDGET PISTOLS	ENTRY-LEVEL BUNDLE OPTICS	For entry-level, defensive, and price-sensitive pistol packages.
B	COMPACT / VALUE PISTOLS	POLYMER MICRO DOT (RMSC) / 6061-T6 LOW-COST RED DOT (RMR)	For compact carry pistols and value-oriented RMR-ready platforms.
C	PERFORMANCE PISTOLS	7075-T6 PERFORMANCE DOT	For training, competition, and mid-to-high-end optics-ready pistols.
D	DUTY / TACTICAL PISTOLS	ENCLOSED TACTICAL DOT	For duty-ready, tactical, and harsh-condition handgun platforms.

**BUILD YOUR HANDGUN OPTICS LINE
BY PISTOL POSITION, NOT BY OPTIC TREND.**

Fast to launch. Easy to match. Ready to sell.

A | BUDGET PISTOLS

Entry-Level Bundle Optics for Budget Pistol Packages

Cost-controlled RMR red dot for price-sensitive handgun packages.
Built on stable CNC metal manufacturing, common RMR platform,
and rain-resistant base sealing.
Designed to add value to budget optics-ready pistols.

HOUSING OPTIONS

Existing Housing A

Ready mold

MOQ 50

Existing Housing B

Ready mold

MOQ 50

Your Custom Housing?

Custom design

MOQ 500

Start fast with ready housings, or build your own style for a dedicated pistol line.

RMR Platform Ready

Industry-standard footprint, easy integration.

Rain-Resistant Sealed Base

Sealed base structure, reliable in wet conditions.

22mm Reflective Window

Clear wide field of view, fast target acquisition.

Stable Adjustment Structure

Precise and durable, holds zero securely.

5-Level Brightness Control

5 brightness settings, adapt to any environment.

650G Shock Resistance

Withstands heavy recoil and impact.

APPLICATION SCENARIOS

Budget pistols • Small-caliber pistols • Entry defensive pistols • Dealer starter packages

» Add value to budget pistol packages without overbuilding the optic.

B | COMPACT / VALUE PISTOLS

Polymer Micro Dot (RMSc) / 6061-T6 Low-Cost Red Dot (RMR)

For compact carry pistols and value-oriented RMR-ready platforms.

RMSc

RMR

Polymer Micro Dot (RMSc)

For compact carry pistols

The optic should feel like part of the pistol, not an aftermarket add-on.

Lightweight polymer housing

Low-profile carry-friendly design

RMSc footprint

Side texture / housing style modification

Better matching with slide and polymer grip

Mold modification: USD 2,000

MOQ 300 pcs

VS

6061-T6 Low-Cost Red Dot (RMR)

For value-oriented RMR-ready platforms

A cost-controlled upgrade from entry-level optics with improved function and durability.

6061-T6 aluminum housing

RMR footprint

Better optics

Auto power-off

Dot + circle / single dot options

Red / green dot and green circle options

Improved waterproof and shock resistance

MOQ 200 pcs per option

HOW TO CHOOSE

Pistol Type	Recommended Optic
 Compact carry pistol	RMSc Polymer Micro Dot (RMSc)
 Value RMR-ready pistol	RMR 6061-T6 Low-Cost Red Dot (RMR)

Lightweight for compact pistols. **Cost-effective** for RMR-ready platforms.

C | PERFORMANCE PISTOLS

7075-T6 Performance Dot

For training, competition, and mid-to-high-end optics-ready pistols.

CORE FEATURES

LOW-PROFILE WINDOW DESIGN

Sleek sight window for natural alignment.

7075-T6 ALUMINUM HOUSING

High-strength, lightweight body.

RMsC FOOTPRINT / HIGH COMPATIBILITY

Compatible with high-end RMsC handguns.

ADVANCED ELECTRONICS

Red/green dot, multi-level, NV compatible.

SIDE-LOADED BATTERY & LONG LIFE

Long battery life, easy swap for extended use.

OPTICS & ENVIRONMENTAL PROTECTION

IPX7 waterproof, 1200G shock resistance.

APPLICATION SCENARIOS

Handgun training & competition

Mid-to-high-end defensive / duty-ready pistols

Tactical / high-stress operational environments

Custom handgun package integration

B2B VALUE

MOQ 200, 500 for custom housing

Customizable red dot design for brand consistency

Style matching with slide, polymer grip, and brand aesthetic

High-performance, reliable optics suitable for dealer channels

D | DUTY / TACTICAL PISTOLS

Enclosed Tactical Dot – RUT1201TR / RUT12620R

For duty-ready, tactical, and harsh-condition handgun platforms.

RUT1201TR

RUT12620R

CORE ADVANTAGES

 <p>Extreme RMsC Enclosed Design</p> <p>Ultra-compact footprint with non-spherical lens.</p>	 <p>Integrated Solar Charging</p> <p>Continuous daytime operation.</p>	 <p>Advanced Electronics</p> <p>Red variable-dot, multi-level, NV.</p>
 <p>Built-in Lithium Battery + Magnetic Charging</p> <p>Convenient magnetic charging, long runtime.</p>	 <p>RMsC / RMR Footprint Option</p> <p>Flexible platform compatibility.</p>	 <p>High Precision & Durability</p> <p>CNC A6061, IPX7 waterproof, 1500G shock.</p>

APPLICATIONS

-  Innovative tactical handgun packages
-  Duty-ready & high-stress platforms
-  Mid-to-high-end handguns

B2B VALUE

-  Customizable side textures and housing
-  Advanced electronics for premium handguns
-  MOQ 500 for custom housing; neutral samples for testing

D | DUTY / TACTICAL PISTOLS

Enclosed Tactical Dot – YIE1203TR / QIY1241TR

For duty-ready, tactical, and harsh-condition handgun platforms.

YIE1203TR

QIY1241TR

CORE ADVANTAGES

YIE1203TR

Budget RMsC Enclosed Dot
6061-T6 housing, red single-dot

Full Electronic Suite
Multi-level brightness, auto power-off, motion sensing

Unlimited Eye Relief
Zero parallax at 33 yards

Side-Loaded Battery
Long-life CR1620, up to 50,000 hours

Shock & Waterproof
IPX7, 2500G

QIY1241TR

ACRO Interface
7075-T6 housing, anodized

Point + Circle Reticle
2MOA dot / 32MOA circle, 11 brightness levels

Ultra Long Battery
40,000 hours

Extreme Shock Resistance
3000G, IPX7

Superior Optics
Glass lens, high-quality multi-coating

APPLICATIONS

Duty-ready & tactical handguns

High-end training and competition

Brand-customized handgun packages

B2B VALUE

RMsC / ACRO interface flexibility

Full-featured electronics for premium and budget models

Neutral samples for testing

MOQ 200 for standard, 500 for custom housing

FORESEEN®

UNDER-BARREL CAMERA VIEW

What the lens actually records from a handgun rail-mounted position

i The camera is mounted under the barrel, showing what the weapon sees – not what the shooter sees.

<p>1 Patrol & Response records encounters and preserves real-time scene evidence.</p> <p>REC 2022-04-16 23:21:01</p>	<p>2 Room Clearing / CQB captures indoor operations for after action review.</p> <p>REC 2023-08-16 11:00:42</p>	<p>3 Low-Light Operations records in low environments while maintaining the actual scene context.</p> <p>REC 2023-04-18 23:18:55</p>
<p>4 Training & Qualification supports instructor review and shooter self-evaluation.</p> <p>REC 2022-03-18 08:14:37</p>	<p>5 Security Patrol documents daily patrol safety and incident response.</p> <p>REC 2022-05-18 12:38:10</p>	<p>6 Evidence Documentation preserves a time-stamped record of events.</p> <p>REC 2022-05-16 21:37:00</p>

<p>True Device Perspective Records from the actual under-barrel position, close to the weapon's line of engagement.</p>	<p>Automatic Recording Starts recording with weapon activation. Captures reliably when it matters most.</p>	<p>Evidence Support Provides an objective, time-stamped record to support investigations.</p>	<p>Compact Rail-Mounted Design Low-profile, lightweight, and built to integrate seamlessly with your daily setup.</p>

POVRec 1

Under-Barrel Auto-Recording Camera

CORE ADVANTAGES (3 Key Selling Points)

Weapon-Platform Stability

Leverages natural hand-firing mechanics to achieve a stable "tripod" effect—significantly reducing camera shake compared to body-worn cameras.

Light-Activated Auto-Trigger

Instant s1s flash boot and auto-recording triggered by ambient light shifts during. Zero manual operation required under stress.

Built for Real Recoil Shock

Structural-grade durability capable of enduring harsh blast shocks up to 1000g/0.4ms with IP67 protection.

TECHNICAL SPECIFICATIONS

OPTICS & SPECS	SYSTEM & DURABILITY
Max. Resolution: 1280x960 @ 50Hz	Startup Time: ≤1s Flash Boot
Horizontal FOV: >100° Wide Angle	Max. Recoil: 1000g/0.4ms live-fire ready
Weight: 82g Ultra-lightweight	Protection Level: IP67 Waterproof
Facial Clarity: ≤3m	Storage: Built-in EMMC (16GB solid shockproof)
Silhouette Clarity: ≤10m	Battery Life: ≥4h Continuous (@25°C)
Dimensions: 63.5x27.5x22.5mm	Power Supply: Type-C (5V, 2A)

B2B STRATEGIC VALUE

- New Blue-Ocean Category**
Fills the gap in weapon-presentation visual evidence for tactical and hunting brands.
- Data Security Compliance**
Localized EMMC recording with zero wireless leakage risks, bypassing government procurement barriers.
- Flexible OEM/ODM Branding**
Mature molds for fast private labeling and rail clamp adjustments with low MOQ commitments.

FORESEEN

FORESEEN VENT-RIB DIRECT MOUNT RED DOT

Enclosed / Large Window / Low-Profile Design

For duty-ready, tactical, and hunting shotgun platforms.

Model: QIY1243TR

CORE ADVANTAGES

VENT-RIB DIRECT MOUNT

Installs directly on shotgun rib for low-profile integration.

ADVANCED ELECTRONICS

Red variable-dot, point-circle, 11 brightness levels, high vision compatible.

LARGE 24MM WINDOW

Superior field of view for fast target acquisition.

SIDE-LOADED BATTERY & SOLAR

CR1632, rechargeable; solar-assisted daytime operation.

ENCLOSED RED DOT

Protected emitter, durable in harsh hunting conditions.

HIGH DURABILITY

6061-T6 aluminum, IPX7 waterproof, 3000G shock resistance.

LOW MOUNT HEIGHT

Maintains sight line and stock ergonomics.

PRECISION ADJUSTMENT

MOA click, ≤ 3 MOA parallax, point-circle fine-tuning.

APPLICATIONS

Shotgun manufacturers

Hunting shotgun brands

Turkey hunting, slug, tactical shotguns

Shotgun platform distributors

B2B VALUE

Upgrade traditional shotguns to optics-ready

Low mount height and vent-rib direct integration as differentiator

Suitable for shotgun brand upgrades and package sales

Ready for OEM customization with MOQ 300 for exclusive housing

MOQ 200 • OEM/OEM CUSTOMIZATION • BRAND PACKAGING • GLOBAL DELIVERY • PRODUCT LINE SUPPORT

FORESEEN SHOTGUN RED DOT

Customer Workflow & Customization

1

SELECT SHOTGUN MODEL

Customer selects a shotgun model with MOQ 200 support.

4

PRODUCE TEST SAMPLE

We produce test sample matched to rib curvature.

2

SIGN AGREEMENT & PAY SAMPLE FEE

Sign development agreement & pay sample fee (USD 100).

5

FINALIZE ORDER

Sample passes → finalize order and brand customization.

3

PROVIDE VENT-RIB DATA

Provide vent-rib curvature data for adaptation.

6

GLOBAL DISTRIBUTION

Production complete → distribute to customer's global distributors.

CUSTOMIZATION OPTIONS

EXCLUSIVE VENT-RIB RED DOT

Side texture and housing design modifications, optional solar charging.

MOQ 500

LOWER-PROFILE WINDOW DESIGN

Maintains button orientation and window size, cost-optimized.

MOQ 1000

BRAND STYLE ALIGNMENT

Supports brand style alignment and OEM packaging.

MOQ 1000

FORESEEN

D | SHOTGUN DUTY TACTICAL RED DOT

YIE1301TR – Enclosed / Open Large Window Red Dot

For duty-ready, tactical, and hunting shotgun platforms.

ENCLOSED VERSION

OPEN VERSION

CORE ADVANTAGES

RMR FOOTPRINT WITH CONVERTIBLE HOUSING

Remove enclosed shell for large open window.

UNLIMITED EYE RELIEF & ZERO PARALLAX

Instant target acquisition.

30MM OPTICS WINDOW

Red single-dot, excellent field of view.

MOTION SENSING AUTO SLEEP / WAKE

Powers up when movement is detected.

6061 ALUMINUM HOUSING

Matte black, durable, corrosion-resistant.

IPX7 WATERPROOF & 2500G SHOCKPROOF

Reliable in harsh hunting environments.

POINT + MULTI-RETICLE OPTIONS

Red or green dot, 11 brightness levels (3 NV compatible).

COMPACT DESIGN

Low-profile mount preserves shotgun ergonomics.

SIDE-LOADED BATTERY

CR1620, up to 50,000 hours runtime.

CUSTOMER FOCUS

Shotgun manufacturers & hunting brands

Turkey hunting, slug, tactical shotguns

Shotgun platform distributors

B2B VALUE

Convertible housing for large-field or enclosed protection

Supports RMR shotgun rails

FORESEEN

COMPACT PRISM SCOPE SOLUTIONS

1X MINI PRISM • 3X30 COMPACT PRISM

From 1X close-range speed to 3X mid-range reach.

1X SPEED

3X REACH

- 1X FAST ACQUISITION
- ETCHED RETICLE VISIBLE WITHOUT ILLUMINATION
- SOLAR MODE + MANUAL BRIGHTNESS
- MOTION SENSING WAKE-UP

1X MINI PRISM SCOPE

Red-dot speed with prism reliability.

Designed for close-range platforms where fast target acquisition, etched reticle visibility, and always-ready performance matter.

KEY FEATURES

- 1X fast acquisition
- Etched reticle visible without illumination
- Solar mode + manual brightness control
- Motion sensing wake-up
- 8 daylight + 2 NV brightness settings
- IPX7 waterproof / 1000G shockproof

KEY SPECS

Magnification	1X
Field of View	13.8°
Eye Relief	91mm
Battery	CR2032
Battery Life	Up to 50,000 hours
Click Value	1MOA
Adjustment Range	±45MOA
Housing	6061-T6 Aluminum

- 3X FIXED MAGNIFICATION
- 30MM OBJECTIVE LENS
- 10MM EXIT PUPIL
- 100MOA TOTAL ADJUSTMENT RANGE

3X30 COMPACT PRISM SCOPE

More reach than a red dot. Simpler than an LPVO.

Designed for close-to-mid range tactical platforms that need more target identification than a red dot while keeping the setup compact and simple.

KEY FEATURES

- 3X fixed magnification
- 30mm objective lens
- 10mm exit pupil
- Compact 78mm body
- 100MOA total adjustment range
- 8 daylight + 2 NV brightness settings
- 1m / 30min waterproof / 1000G shockproof

KEY SPECS

Magnification	3X
Objective Lens	30mm
Eye Relief	69.2mm
Exit Pupil	10mm
Field of View	7.3° / 12.8m @100m
Click Value	0.25MOA
Adjustment Range	±50MOA
Size	78 × 44.3 × 66.4mm
Weight	253g
Housing	CNC 6061 Aluminum

APPLICATION SCENARIOS

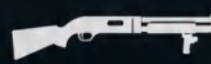

AR / AK PLATFORMS

Compact tactical optic options for close-to-mid range use.

PCC / CARBINE SETUPS

Lightweight and simple aiming solutions.

TACTICAL SHOTGUNS

Fast aiming and rugged performance for close-range platforms.

TRAINING / DUTY USE

Clear reticle, easy operation, and reliable field performance.

B2B VALUE

RED DOT ALTERNATIVE

The 1X Mini Prism offers etched reticle reliability for users who prefer prism clarity.

LPVO ALTERNATIVE

The 3X30 Compact Prism provides mid-range capability without LPVO size and complexity.

PRODUCT LINE EXPANSION

A natural extension for brands already selling red dots, mounts, and tactical optics.

OEM / ODM BRANDING SUPPORT

Logo, packaging, reticle, finish, and product positioning support available.

FROM 1X SPEED TO 3X REACH — BUILD A COMPACT PRISM SCOPE LINE.
